

ICREN 2018

INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY

APRIL 25-27, 2018 | BARCELONA

CALL FOR PAPERS – ICREN 2018

ICREN: Research for a better future

Renewable Energy is one of the most important challenges that the world must address urgently. Governments and private companies are expanding investments in this field and the research is moving very quickly in several ways. This conference will be the opportunity to gather researchers from different subfields and have a global overview about the latest progress

The **Renewable Energy International Conference** is an annual gathering with the following objectives:

- Attract high quality papers in different subfields.
- Offer the opportunity to be updated on the latest research outputs on several Renewable Energy topics.
- Organize specific workshops around the most attractive and current issues.
- Gather worldwide experts as conference speakers.

Topics of interest include, but are not limited to:

- Advanced materials for energy storage
- Advanced materials for energy generation and transmission
- Photovoltaic and solar energy systems
- Bioenergy and biofuels
- Biomass conversion technologies
- Wind energy technology and impact on environment
- Thermal energy and building performance
- Smart grid and electric transportation
- Hydrogen energy and fuel cell technology applications
- Energy recycling systems

Important Dates:

- Regular submission deadline: February 9, 2018
- Regular registration deadline: March 9, 2018
- Conference: April 25–27, 2018

Guidance for authors:

The submission must be done through Ex Ordo (<http://icren2018.exordo.com>) where you have to create your own account. This abstract management system enables you to manage your submission as you wish.

Proceedings & Publishing:

- The Journal Energies (Impact Factor: 2.262) will publish a special issue
- The Journal Environment, Energy and Earth Sciences (SCOPUS-indexed) will publish the proceedings
