### ***IHRA Recommendations for Teaching and Learning about the Holocaust***

In this workshop, participants will actively participate in finding answers to three key questions (WHAT? WHY? and HOW?) related to teaching and learning about the Holocaust by analyzing materials that address different approaches and strategies (International Holocaust Remembrance Alliance Recommendations). The focus is on the question HOW?

Participants will be able to:

1. Explain the different types of challenges in teaching and learning about the Holocaust,
2. Identify different approaches that can successfully respond to the challenges of learning and teaching about the Holocaust,
3. Analyze the appropriateness, validity, and meaning of individual written, audio, and visual sources in the context of teaching and learning about the Holocaust.
