

LECTURE/WORKSHOP

SUMMARY

Hungary, Slovakia - Bratislava 2022

Speakers : Gabriella Komoly, Miklos Vas

Participatory site-based – project planning

This workshop introduces a participatory-based, educational methodology on how to create local-historical programs with the potential involvement of students. The workshop will explore ways of thinking and working together while teachers will implement the building blocks of the participatory learning methodology and begin the planning of a site-based learning project on a selected location.
