

## LECTURE/WORKSHOP SUMMARY

Italy, Slovenia, Croatia - Trieste 2023

### Speaker :

The lecture aims at contextualizing the issue of politically motivated killings which took place in socialist Yugoslavia at the end of the Second world war. Through a reconstruction of historical events based on scholarly literature and by applying the tools of content and media analysis, it will be shown how such killings, meant by the perpetrator as an act of political revenge, are being increasingly presented as motivated by ethnic hatred.
