

## LECTURE/WORKSHOP SUMMARY

Italy, Slovenia, Croatia - Trieste 2023

### Speaker :

Boris Pahor's work is strongly marked by this desire for memory, of not wanting to forget and thus of remembering not only the experience of the Nazi concentration camps, but also the years of fascism, the persecutions that the fascist authorities carried out against the Slovenian population. His happy childhood spent in Trieste on Via del Monte was interrupted by the episodes of humiliation he had to endure at school as a Slovenian child with his weak Italian, who was forbidden to express himself in his mother tongue.
