

LECTURE/WORKSHOP SUMMARY

Lithuania, Poland - Vilnius 2022

Speaker : Katarzyna Kulińska

In 1946, 42 innocent people - Jewish survivors of the Holocaust - were killed in Kielce. To this day, historians debate the causes, and the city's community grapples with the memory and the question of responsibility for this murder. We will use this story as a case study to talk about the possibilities for the local community to face a difficult past. Forms of work: presentation, group work with quotes and needs models.
