Standard Operating Procedures for Research Integrity

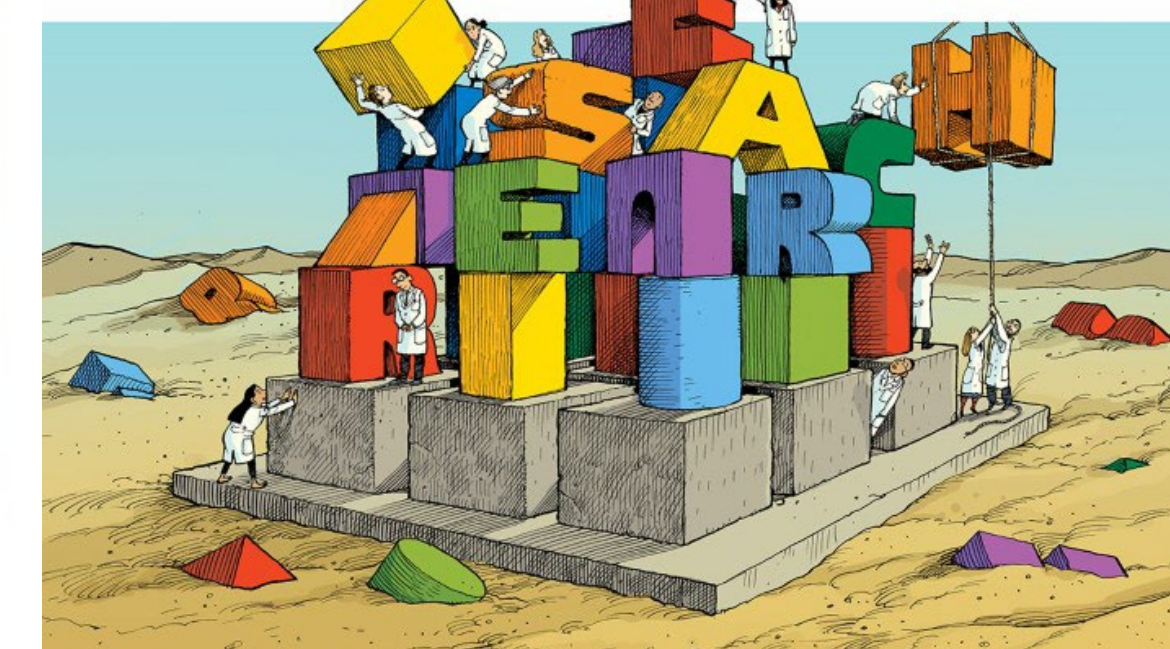

Promoting excellent research aligned with the European Code of Conduct for Research Integrity

SOPs4RI'S APPROACH

- All research performing organisations (RPOs) and research funding organisations (RFOs) should have a Research Integrity Promotion Plan (RIPP)
- The RIPP should outline the steps that the RPO or RFO will take to promote research integrity in the context of its mission and disciplinary focus
- It should address a number of RI topics – and outline policies for how these topics will be handled.
