

# ICREN 2019

INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY

APRIL 24-26 2019 | UNESCO, PARIS

## CALL FOR PAPERS – ICREN 2019

### **ICREN: Research for a better future**

Renewable Energy forms one of the pillars for delivering global sustainable environment and the commitment to climate change targets. The renewable energy industry has matured, with huge investments being ploughed into it globally. Global new investment in renewable energy (excluding large hydro-electric projects) was around US\$241.6 billion in 2016, with over 138.5GW of added renewable power capacity worldwide. This capacity is equivalent to 55% of all the generating capacity and was approximately double that in fossil fuel generation in 2016. International Conference on Renewable Energy series addresses research and development in renewable energy technologies including energy efficiency. It is an annual meeting planned to be held in a different countries, initially within Europe, with Asia, Middle East, Africa and Latin America being highlighted as target regions for the conference.

The next in the series of the International Conference on Renewable Energy is the ICREN2019 focusing on international participation including experienced and young researchers with interest in renewable energy studies. The conference will be held at the UNESCO Headquarters in Paris, France providing an unsurpassed venue to nurture debate in this globally important area.

The target of ICREN2019 is to attract the best articles and experts from all around the world. In order to promote excellence, awards will be offered to the outstanding submissions and all participants who would like to publish their full paper will have the opportunity to do it with ICREN 2019 and its associated journals.

### **Topics of interest include, but are not limited to:**

- Renewable Energy technologies – solar, wind, wave, tidal, geothermal, bioenergy, hydropower
- Energy storage concepts and materials
- Renewable energy integrations and energy networks
- Innovation in energy efficiency and architecture
- Energy access, gender and development
- Economics social and environmental and policy aspects
- Energy and climate change

### **Important Dates:**

- Regular submission deadline: February 15, 2019
- Regular registration deadline: March 15, 2019
- Conference: April 24–26, 2019

### **Guidance for authors:**

The submission must be done through Ex Ordo (<http://icren2019.exordo.com/>) where you have to create your own account. This abstract management system enables you to manage your submission as you wish.

### **Proceedings & Publishing:**

- Coming soon
