

ICREN 2020

INTERNATIONAL CONFERENCE ON RENEWABLE ENERGY

NOVEMBER 25-27 2020

ONLINE

CALL FOR PAPERS – ICREN 2020

ICREN: Research for a better future

Renewable Energy forms one of the pillars for delivering global sustainable environment and the commitment to climate change targets. The renewable energy industry has matured, with huge investments being ploughed into it globally. Global new investment in renewable energy (excluding large hydro-electric projects) was around US\$241.6 billion in 2016, with over 138.5GW of added renewable power capacity worldwide. This capacity is equivalent to 55% of all the generating capacity and was approximately double that in fossil fuel generation in 2016. International Conference on Renewable Energy series addresses research and development in renewable energy technologies including energy efficiency. It is an annual meeting planned to be held in a different country, initially within Europe, with Asia, Middle East, Africa and Latin America being highlighted as target regions for the conference.

The next in the series of the International Conference on Renewable Energy is the ICREN2020 focusing on international participation including experienced and young researchers with interest in renewable energy studies. The conference will be held Rome, Italy.

ICREN2020 will include articles and presentation on the latest research on renewable energy technologies, grid interactions, energy efficiency, data analytics, economics and finance, environmental and social impact as well as policy and climate change implications.

Topics of interest include, but are not limited to:

- Renewable Energy technologies – solar, wind, wave, tidal, geothermal, bioenergy, hydropower
- Energy storage concepts and materials
- Renewable energy integrations and energy networks
- Innovation in energy efficiency and architecture
- Energy access, gender and development
- Economics social and environmental and policy aspects
- Energy and climate change

Important Dates:

- Submission deadline: September 23, 2020
- Registration deadline: October 23, 2020
- Conference: November 25–27, 2020

Guidance for authors:

The submission must be done online (<http://icren2020.exordo.com/>) where you have to create your own account. This abstract management system enables you to manage your submission as you wish.

Proceedings & Publishing:

- Environment, Energy and Earth Sciences Journal (Scopus indexed)
- Energies – MDPI (IF: 2.262)
