

CALL FOR PAPERS – ICT/ECT 2027

The **International & European Conference on Thermoelectrics** is an annual gathering with the following objectives:

- Attract high quality papers in different subfields
- Offer the opportunity to be updated on the latest research outputs on several Thermoelectrics topics
- Organize specific workshops around the most attractive and current issues
- Gather worldwide experts as conference speakers

Topics of interest include, but are not limited to:

- **Fundamental theory and computational modelling** of thermoelectric phenomena.
- **Synthesis, characterization, and discovery of new materials**, including high-performance compounds, thin films, nanostructures and unconventional architectures.
- **Modules, devices, and systems engineering**, spanning cooling, power generation, and nanoscale to macroscale applications.
- **Thermal management innovations**, such as advanced high-thermal-conductivity materials and ultra-low-conductivity insulators.
- **Energy-harvesting applications**, crucial for carbon-neutral strategies and the powering of vast IoT sensor networks.
- **Industrial translation and emerging markets**, supported by strong participation from companies and research laboratories worldwide.

Important Dates:

- Regular submission deadline: December 11th, 2026
- Regular registration deadline: March 26th, 2027
- Conference: June 6th-10th, 2027

Venue:

This edition will be held at the **Palacio de Congresos de Torremolinos, C. México, 3, 29620 Torremolinos, Málaga, Spain**

Guidance for authors:

The submission must be done online (<http://ict2027.exordo.com/>) where you will have to create your own account. This abstract management system will enable you to manage your submission as you wish.

Proceedings & Publishing:

More information coming soon.
